

## Uvex Seismic Safety Goggles S0600HS

**Anti-Fog, Hydrophilic, Hydrophobic, Scratch-Resistant Safety Glasses, Clear Lens**

The contemporary design of Honeywell Uvex® Seismic® Sealed Safety Glasses can be worn with detachable temples or with an adjustable headband for all-day comfort. They are well-suited for dirty, high-particulate work environments such as those where grinding, chipping, shaving and sanding occur. Soft, flexible nasal pads and face cushioning offer excellent fit.

The hydrophilic/hydrophobic HydroShield® antifog coating technology offers 90x longer-lasting fog-free performance than most other antifog products.
